Registering for the Computershare US Investor Center

Select a company you own shares in:

- On the homepage select the 'Register now' link which will direct you to the online registration form. You will then be required to enter 'CRH plc' under the Company name, enter your 'HAN' and follow the online instructions.
- Assistance on how to register for Computershare US Investor Center, along with available functionality can be found at www-us.computershare.com/Investor/#Help.

Once you have registered, for security purposes, if you are a non-US shareholder, you will be sent an authentication code to finalise and activate your account. This code will be sent to you in both of the following ways:

- *By email:* Within 48 hours of completing your registration process, an email will be sent to you (using the email address you enter as part of the registration process), containing the authentication code. As soon as this is received, you should return to the Computershare US Investor Center website to validate your account. If your code is not received within 72 hours, please contact Computershare US (see section 2 above); and
- *By post:* Additionally, an authentication code will be sent to your registered address by post. To access your account promptly, we recommend using the code upon receipt by email.

Please note, you will need to enter your authentication code in order to authenticate your Computershare US Investor Center account and enable the related services.

US shareholders can authenticate their accounts using their social security number.
