

How we create Sustainable value

Responsible management of assets and infrastructure across the value chain from source to site

Building trust through quality of service, local knowledge and reliable products

Innovation and customer partnerships to create competitive advantage

We embed a culture of safety

Over 90% locations accident-free

We create solutions for our customers

27 million tonnes of alternative raw materials

We do business with integrity

33 hours annual training per employee

We collaborate and engage for sustainability

Over 1,000 stakeholder engagement events

We protect the environment

1 million tonnes CO₂ prevented

Our efforts can contribute to the delivery of certain UN Sustainable Development Goals

We are on-track for delivery of our 2020 Sustainability Targets
